Quiz Sought on Disposal of Commission Funds

Wilmington Senator Holds District Neglected

Attack Comeback of Canners, Opponents Declare

SACRAMENTO, April 5. (Exclusive)—A resolution calling for a report on the expenditure of funds by the Fish and Game Commission was introduced today in the Senate by Senator Carter of Wilmington and immediately drew fire before it was referred to the Fish and Game Committee for consideration.

In his resolution Senator Carter contends that the Fish and Game Commission in the past twenty years has collected privilege fees from fish cannery, which are in his district, in excess of \$600,000. The Fish and Game Act provides that these privilege fees be expended in the districts in which they originate.

USEFUL ENDS

Senator Carter says that the canneries used these monies to the best advantage in the promotion and habits of fish as well as the best methods of canning. The commission, he says, for two years spent \$15,000 annually on the study of bivalves in fish foods, has eliminated even that item from the budget and is diverting all funds to game districts and conservation.

The cannery, he says, do a business of \$20,000,000 annually, and are deserving of consideration. His resolution would force the commission to make a report.

Avoid

DANDRUFF

how to check it

Youngsters usually get dandruff at school; promiscuous use of combs, towels, etc., brings it on. At the first sign of it, go after it with Listerine, the safe antiseptic, for dandruff is a germ disease and Listerine attacks germs.

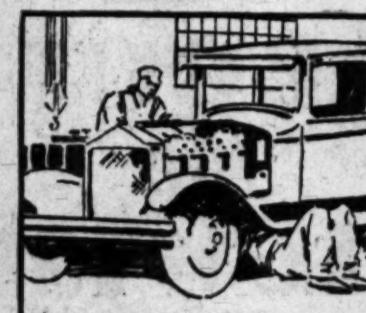

To combat dandruff you simply dose it on full strength and massage the scalp vigorously. Keep the treatment up systematically.

HOW ABOUT YOU?

Have you tried Listerine Tooth Paste yet? Good as its name, and 25¢ the large tube.

THE SAFE ANTISEPTIC

LISTERINE
kills 200,000,000 germs in 15 seconds

SENATE STRONG FOR QUARANTINE

YOUNG MEASURE FINALLY VOTED

Upper House Unanimous for Foot-and-Mouth Bill

Measure Bars Foreign Feed as Contagion Source

Law Declared Only Weapon at State's Hand

BY C. A. JONES
"Times" Staff Representative

SACRAMENTO, April 5. (Exclusive)—The Senate today passed Senator Garrison's bill providing that the State may establish quarantine boundaries to prevent the recurrence of the foot-and-mouth disease among cattle of the State.

The Modesto Senator announced that his measure provides the only known action that the State might take in preventing recurrence of the foot-and-mouth epidemic in California stock herds. Not a single dissenting vote was cast against the measure.

Garrison told members of the upper house that millions of dollars was lost by California stockmen during the two previous outbreaks of the contagion. Both epidemics, he said, were caused by the importation of feed from foreign ports and his bill provides for quarantine regulations to prohibit such imports.

YOUNG'S DEFENSE
In connection with the subject, Senator Young said:

"The commission has used its funds both honestly and intelligently. Four cannerys already have been closed by the commission for law violations in connection with the use of fish food for fertilizers."

"If the cannerys are allowed to continue flouting the law and reducing sardines to fertilizer they soon will destroy the entire sardine crop."

Robert Smith's Marriage Stirs Bitter Feelings

SAN FRANCISCO, April 5. (AP)—While Robert Cook Smith, San Francisco artist and sportsman, and his bride, formerly Miss Willette Allen, opera singer and member of the wealthy Sharon family of Piedmont, were honeymooning somewhere out of Reno, today Mrs. William E. Sharon, widow of the son of the late United States Senator W. A. Sharon, pioneer California millionaire, and grandmother of Mrs. Smith, said that Smith will not be accepted by the Shasons.

In San Francisco, Mrs. Myra Smith, divorced wife of the artist-bridegroom, appeared in court in support of a petition to have her former husband held in contempt of court for his asserted failure to pay \$1000 due her in alimony.

GERMAN RECORD on War Spying May be Aired

WASHINGTON, April 5. (AP)—Germany's official record of her activities in the United States from August, 1914, to April 6, 1917, may be turned over in its entirety, including orders and correspondence in connection with asserted sabotage and espionage, for perusal by the German-American Mixed Claims Commission.

Karl Von Lewinsky, arguing Germany's side of the \$24,000,000 sabotage claims by the United States, which grew out of war time explosions in New Jersey, today told the commission his government produces any records requested.

NORTH GAS RATES CUT

Reduction in Monterey Section Made by State Railroad Commission

SAN FRANCISCO, April 5. (AP)—A reduction in electric power rates, which will result in an annual saving to agriculturists in Monterey, Salinas, Kings City and the San Joaquin Valley of \$45,000, was announced late today by the State Railroad Commission.

Under the rate reduction order the new rates will become effective on all meter readings after the 1st instant.

The reduction maintains in the territory formerly served by the Coast Valleys Gas and Electric Company, now part of the Pacific Gas and Electric Company system.

The commission reveals the new rates are the result of informal negotiations conducted by Charles H. Newell, head of its gas and electric division, heads of the California Farm Bureau Federation and officials of the Pacific Gas and Electric Company.

LEGISLATIVE BILLS PASSED

SACRAMENTO, April 5. (AP)—The legislature passed a total of forty-three bills today, thirty-five of them in the Senate and eight in the lower house.

BILLS PASSED IN THE ASSEMBLY

Assembly Bill No. 47, Fisher, relating to the Board of Harbor Commissioners of the State.

Assembly Bill No. 550, Jepsen, relating to the State Auditor and Comptroller.

Assembly Bill No. 56, Bernard, relating to the State Auditor.

Assembly Bill No. 60, Bernard, amending Assembly Bill No. 56, relating to the State Auditor.

Assembly Bill No. 79, Lyons, making it a misdemeanor to defraud proprietors of restaurants.

Assembly Bill No. 84, Lyons, relating to termination of the state institution for the blind.

Assembly Bill No. 104, Billings, relating to good credit granted prisoners in the state prison.

BILLS PASSED BY THE SENATE

Senate Bill No. 614, McKinley, an act requiring the recording of subdivision maps.

Senate Bill No. 153, Cobb, authorizes the state auditor to make investigations of state property when parcels a contract.

Senate Bill No. 153, Cleveland, Santa Cruz county.

Senate Bill No. 152, Ray Jones, Yolo county government.

Senate Bill No. 156, Way, amends the California Water Storage District Act.

Senate Bill No. 157, Baker, relating to county budgets and required school district expenditures.

Senate Bill No. 158, Baker, relating to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 159, Baker, relating to periods of unemployment.

Senate Bill No. 160, Baker, relating to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 161, Mueller, creates a new division of investment in the state schools.

Senate Bill No. 162, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 163, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 164, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 165, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 166, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 167, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 168, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 169, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 170, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 171, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 172, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 173, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 174, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 175, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 176, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 177, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 178, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 179, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 180, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 181, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 182, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 183, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 184, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 185, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 186, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 187, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 188, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 189, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 190, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 191, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 192, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 193, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 194, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 195, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 196, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 197, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 198, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 199, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 200, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 201, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 202, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 203, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 204, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 205, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 206, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 207, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 208, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 209, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 210, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 211, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 212, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 213, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

Senate Bill No. 214, Byrnes, relates to the lighting of railroad grade crossings and hazard bridges, highway intersections and hazard.

NEWS OF SOUTHERN COUNTIES

LEO WINS AS ROCCO LOSES

Ventura Jury Convicts One and Acquits Other

Life Imprisonment Urged in Gangster Slaying

Freed Man Rearrested Over Theft of Machine

VENTURA, April 5.—Life imprisonment for Frank Rocco for the murder of James Brady and acquittal for Dominic Leo, was the verdict of the jury at 3:32 a.m. today in the Superior Court, after deliberation since 11:30. Michael J. C. O'Leary, foreman, read the verdicts as 100 spectators who had waited for the return of the jury, crowded about the court railing.

"It's what I hoped for," Rocco said, relaxing in his chair for the first time in days with a smile on his face.

THANKS JURORS

Leo's body gave a violent jerk and he lifted his eyes to the jury, the first impulsive movement shown by him during the course of the trial. His father, Raffaele Leo, who had come from Boston to aid him, had left the courtroom shortly before the verdict for a cup of coffee and was not present when his son was freed from the custody of Sheriff Robert Clark by Judge Edward Henderson.

As soon as court was adjourned, Leo went to the three men who made the successful fight to save him from conviction, Louis Draper, his guardian, and George Gruber. He shook hands with each, a smile filled with tears and without uttering a word. Then he turned toward the entrance as the jury filed out, shaking each juror's hand and offering his thanks inaudibly with his head bowed.

Rocco will hear pronouncement of judgment Monday. Leo was again placed in custody as the officers prepared to take Rocco back to the jail. Leo is said to be wanted in Brooklyn on a Dyer Act charge. He is said to have stolen the Packard death car there.

TESTIMONY REREAD

The jury was locked up at 9:30 p.m. Soon afterward the members filed back into the courtroom and the testimony of W. T. Maddin, Mrs. Forrester and Audrey Moroso was read to them. After the reading they again retired.

Carl Wallace sent congratulatory letters to the Sheriff, Dr. Davis and Chief Justice Davis in Los Angeles thanking them for their co-operation. Within twenty-two hours after the body of Brady was found near here Los Angeles officers had the accused men under arrest with nothing to start work on but a Los Angeles telephone number.

Ontario Boy to be Honored

ONTARIO, April 5.—Highest honor offered by the Order of De Molay upon a boy is to be bestowed upon William Houston Dewey, 314 East G street, who was informed today by Dr. W. S. Land, Grand Shrine of the order.

Dewey received word that he has been elected to receive the Legion of Honor at the last session of the Grand Council held at Pittsburgh, March 18 and 19. He was nominated to receive the distinction by Charles Emory Wright, Deputy Grand Councillor for the local district.

Dewey is to be invested with the degree at the new Masonic Temple at Glendale during the summer.

FEDERAL WORKERS TO GATHER AT UPLAND

UPLAND, April 5.—Invitation extended by L. N. Kirk, local postmaster, to the Federal Business Men's Association of San Bernardino and Riverside counties, to hold the next quarterly meeting here on the 16th inst., has been accepted, Kirk announced today.

The session, which is preceded by a dinner at 6:30 p.m. James Wheat, postmaster at Redlands, is chairman of the program committee, and will provide the speaker and features of entertainment. A business meeting will be held after the dinner.

The association is made up of heads of all Federal divisions of the two counties, including Indian Service, forestry, postoffice and agricultural. Officers are Sherman C. Bachelor, San Bernardino postmaster, president; G. E. Colton, postmaster, vice-president; D. E. Murphy, Indian Service at Riverside, secretary.

TREE WRECKS OIL TRUCK

Driver Seriously Injured as Machine Dives from Highway Near Thousand Oaks

OXNARD, April 5.—Adolph Harder, 30 years of age, lies in a critical condition in the Los Angeles General Hospital following a spectacular early morning automobile accident at Thousand Oaks, twenty miles east of here.

Harder was driving an oil truck loaded to capacity when he was met by a stone-towing another car. In trying to give the stone pliers of the oil truck the high-way and crashed head-on into a huge oak tree directly in front of the Green Tree Inn.

From the manner in which the car was torn apart, it apparently was traveling at high rate of speed. A stone, a gash two feet in length ripped out of the bark of the tree twelve feet from the ground and indicated that part of the machine had been buried into the air with great force. Drums and cans of grease and oil were scattered about the highway and the ground for considerable distance was covered with oil.

POPULAR SWIMMIN' OLE OPENS

Montebello Plunge Enters Third Year

Youngsters and Grownups Take First Dip

MONTEBELLO, April 5.—Opening the 1929 swimming season here the municipal plunge began operation today in charge of Super V. E. Row. More than 241 took their first swim of the season in the local pool.

Row, recently appointed, the machinery has been operated by the city officials.

All of the dressing-rooms have

ORANGE COUNTY DAM PLAN TOLD

Engineers Outline Projects to Cost \$16,000,000

Flood Control, Conservation of Water Are Objects

Safety Factor Emphasized in All Specifications

SANTA ANA, April 5.—After a year and a half of engineering investigation reviewed by three engineers of international note, a \$16,000,000 flood control and water conservation program was disclosed today to the people of Orange county following a meeting of engineers and flood control officials.

Its salient features were revealed as follows:

(1.) An earth dam, costing \$1,000,000, to be located at the "lower site" in Santa Ana Canyon. This structure, the corner-stone of the entire project, would be 150 feet high, with a storage capacity of 180,000,000 feet of water and construction features capable of handling a flood two and one-half times greater than the county has ever experienced.

Two sections of horses and a herd of wild steers have been shipped here for the two-day entertainment, in addition to which a string of Arabian horses will be on exhibition.

Residents of this city were treated today to an unexpected wild west show when two of the steers broke loose and led six cowboys a merry chase through the streets and across country toward El Monte. The steer, after animals finally eluded their pursuers, it was reported late today, but the hunt was still in progress.

(2.) Conservation of flood runoff in the canyon. This will consist of an earth dam 100 feet in height with a capacity of 2500 acre-feet in Carbon Canyon, midway between the Forks and Telegraph Canyon, and two earth dams in Brea Canyon.

One dam would be 150 feet on the south line, below the mouth of Brea Creek, at the county line, being constructed with a storage capacity of 1000 acre-feet. The other dam would be located on the south fork, near the county line, and would be 100 feet high, with a storage capacity of 2400 acre-feet.

Both dams will be 100 feet high, with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. A similar earth dam, with a storage capacity of 2600 acre-feet, will be built on the south fork, near the county line, being constructed with a storage capacity of 200 second-feet would be constructed below the Carbon Canyon dam, to catch flood waters rising below the reservoir, and carry them to the Santa Ana River where they would be sunk underground. EARNED INCOME TAX SLASH NEXT
Hoover GIVES VIEW ON ARMS

Hoover Holds Wage Workers Due for Relief
Not Ripe for Revision Yet, President Says
Coming Expenditures Must First be Gauged

FLYER MUST BE PHYSICALLY FIT
March Field Physician Tells Doctors' Meeting
More Attention to Planes Than Men in World War
Not All Men Qualified for Pilot's Place

RIVERSIDE April 5.—There is a branch of aviation is a highly important branch of the science of medicine. Physicians from all parts of the Southland were told today in a paper written by Maj. Chase, commanding the March Field medical corps. Maj. Chase's paper was a feature of the opening session of the Southern California Medical Association which is to convene here for three days. It was read by Capt. H. E. Maj. Chase having unexpended funds called to an army conference in Washington.

In the early days of flying Maj. Chase's paper pointed out, the plane was paid to the efficiency of the plane but not to the pilot. The result was that, in the World War many men in the aviation service were physically defective. A man, a plane, a pilot, to an extent, the speed of perception, a notable degree of distribution of attention, constancy, precision, co-ordination of movement, etc., and just as it is expected that appropriate training will be made for helping all these expenditures have been reduced and their effects have been determined by the budget determined. Mr. Chase feels that it is impossible for every man to become an airman.

The physicians were welcomed at Riverside by Dr. Bon. O. Adams, Dr. Paul E. Simonds of Livermore, president of the association. Dr. Adams presided over the session.

MAN LEARNS OF HOME CACTUS IN UNUSUAL MANNER

Court Rules Against Her in Set Aside House of Reconciliation

NO LAND REDUCTION

The disarmament problem, the President feels, is not a question of territory, but one of determining the degree of actual fighting strength so that limits may be provided upon which a limiting agreement can be reached.

While the Preparatory Commission also will consider the reduction of land armament, Mr. Hoover believes that this is not the most important United States. In his opinion any possible agreement limiting the size of land forces will give this country an even larger army than it now has.

LOCAL LINE BUYS VESSEL FROM BOARD

Los Angeles Company to Employ West Hosokio in Coastal Service

WASHINGON April 5. (Exclusive) The United States Shipping Board today authorized the sale of the steamship West Hosokio to the Los Angeles Steamship Company for \$82,000. The vessel will be added to the intercoastal fleet mainly by her present owners. She is a steel oil ship of 8551 deadweight tons equipped with turbines and oil-burning boilers. She has been in lay-up at Norfolk since January, 1921. This vessel will be placed in service immediately under the new owners and after conversion will be available to the west coast with a full cargo of freight.

The board today directed the Merchant Fleet Corporation to advertise for sale a total of twenty-three vessels which have been laid up for a period of six months. Sale will be based on proposals to scrap the vessels completely or to convert them to barges or Diesel propulsion. Bids will be opened May 7.

The ships are the steel-cargo type aggregating 186,962 deadweight tons. They are now laid up as follows: Eleven at Norfolk, nine at New York and three at Philadelphia.

COUNTRY AND TRIP BY AIR COMPLETED

ELKS' LODGE SEATS GEORGE H. FULLER

SAN FERNANDO April 5.—The largest gathering to date of the Elks' lodges since its initiation a year and a half ago was held at the installation of George H. Fuller as Exalted Ruler. Officers seated are: Harry R. E. A. Thomas, Local John Thomas W. Binder, C. W. Carpenter, Fairland, Roland Williams, Prince, Joe Daly, Harry Clegg, R. Bashe, Jerry Olimando and A. Julius. San Fernando has the only Elks' lodges in San Fernando towns in the district.

LOS ANGELES EXCHANGE

Pacific Mutual Group Stocks Feature Operations; Petroleum Issues Ease Lower

Pacific Finance and International Reinsurance commanded the speculative interest as each advanced to new peak levels in the trading day on the Los Angeles Stock Exchange. The former jumped 3 1/4 points to a top at 118 1/2, and ended at 117 1/2 and the latter shot up a point to score a new high at 61 1/4, closing later at 59 1/2. Both issues have advanced steadily since the first of the week.

Counteracting impulses of buying and selling brought about a spotty condition in the market of the list, while the oil issues lowered the whole. The still indefinite status of the oil curtailment program and the second warning sounded to speculators by the Federal Reserve Board was largely influential to what the softening was.

Standard of California led the action with a drop of 2 1/8 points

**Erratic Price
Drift Noted on
Grain Markets**

CHICAGO, April 5. (Exclusive)—Pillsbury conditions were the dominating influence in the grain markets. Fluctuations were erratic, with wheat having a range of 10c. and corn 10c. The latter was lower to 10c. higher, with the market showing the decline, finishing at 1,121 1/2c. July 1921, +12 1/2c. Selling of May and July and some buying of June and September 1,200,000 bushels. Selling of May and July and some buying of June and September 1,200,000 bushels. The drift was heavy. The market was moderate, but a rally followed. The market closed unchanged for the day with May at 1,121 1/2c. July 1921, +12 1/2c. and September 94 1/2c. Corn received wood support and closed 10c. higher than May 48 1/2c. July 1921, +12 1/2c. and September 43 1/2c. July 1921, +12 1/2c. Corn was up 5c. but developing an overbought condition and the May finished at 1,093c. July 1,024c and September 43 1/2c. The Chicago-Winnipeg wheat spread showed a tendency to widen, and was followed by selling there, which was met by purchases by spreaders, who have now turned toward the east, and the wheat there has lost 10c. of value. No. 2 corn was reported to be the Canadian Northwest toward the west and has the depressing effect, as dry weather in Prairie provinces has been a bullish influence of late. Grain sales fell in parts of Kansas and the forecast was for rain or snow over the entire winter and spring in that area. Seedling has become fair in western Dakota, but rains are expected to continue there. April wheat here was 8c. lower at one time as the market and the big carrying charge was up, but the inducing factors of the near-by delivery to the east over into the distant future before the spread widened much further. There was talk of the buying in hard winter at the Gulf, although the bids were 8c. off line. Sales in all markets were finally estimated at somewhere over 1,000,000 bushels, largely Manitoba, Liverpool and 400,000 higher, with a better continental distribution.

Corn was easy early, but local bulls took the buying side and drove it to a rally. Commission-house trade was light, and the market easily influenced. The trading was limited to the small developments before taking to new wheat on either side. Cash demand was fair, with spot basis 4c. lower to 10c. and purchases of 30,000 bushels were made from the market. Country offerings, however, were limited. Exporters are reported to be increasing and for the week average 1,385,000 bushels against 1,000,000 bushels the previous week, and 1,007,000 bushels last year.

Corn declined early, but pressure quickened and a rally of 8c. followed, with commission houses and buyers of the September. Rains over the head are expected to retard field work and seedling is already about normal over a wide area.

There was talk of the

beginning of a small export business in 1921 at the end of the year and futures advanced rapidly with a light trade.

Provisions averaged higher, trade

concerns bought hard mod

up on the strength of hogs. Selling

was scattered, with 1,000,000 bushels to 1,747,000 bushels, and 400,000

pounds. It was reported that a short

short trade had developed in late

March, but that fair sales were made

in the previous week.

Coroners Meet
at Mission Inn

The Weather
FOR LOS ANGELES AND SOUTHERN
CALIFORNIA. Partly cloudy and cool today and
tonight. High 65°, low 52°. Minimum temperatures
27°-30°.

RIVERSIDE, April 6.—Twenty-three counties representing the California State Coroners Association met this morning at the Mission Inn. Practically the entire day was devoted to discussion of legislation pending in the Legislature.

Election of officers will take place tomorrow afternoon following which the convention will adjourn.

GAMBLING DENIED

Slot Machine Owners Assert They Are Candy Venders Only

SANTA BARBARA, April 6.—Declaring that his "silent saloons" are only candy venders, that the successive playing by one individual of his slot machines is prohibited, and that only nickels are to be used in them, Charles J. Getz, of Los Angeles, filed a second complaint in Superior Court yesterday to obtain a temporary restraining order and injunction against the Chief of Police and Sheriff to prevent them from sealing up the machines.

According to the complaint, he stopped the officers from sealing up his place to hear and watch the slot machines to prevent any gambling. Gane maintained in the complaint that the machines are not gambling devices because the number of coins which will be issued is determined before the lever is pulled.

After being used as a home for pigs with the font as a trough, the ancient church of St. Mary Magdalene at Edipon, is to be preserved as a national monument.

Reports Asked on All Missing Women as Officers Attempt to Solve River Murder Case

TORSO'S LIMBS BEING SOUGHT

Sheriff Requests Citizens to Aid Investigation

Authorities Believe Victim Was Killed Here

Crime Theories Advanced as Inquiry Goes On

A county-wide request was broadcast by the Sheriff's office last night for citizens to report any case of a missing woman coming to their attention, after a day's concentrated search failed to reveal the identity of the headless, armless and legless body found Thursday night in the Los Angeles River bottom near Lynwood.

"The help of every citizen is needed in this crime, which apparently is the work of a fiend," declared Capt. William Bright, in charge of the Sheriff's homicide squad. "The woman's torso provides no clue to her identity. Only by checking the disappearance of every woman since the auto accident will we probably get a trace of the murderer."

This much information, Capt. Bright declared, is available after County Autopsy Surgeon Wagner's autopsy on the body yesterday. The woman was approximately 25 years of age, about 5 feet 7 inches in height and probably weighed 125 pounds. Her hair was brown or blonde.

The vital organs were turned over to County Chemist Aloysius for analysis of possible death by poison, but the general opinion is that the test will prove negative.

THEORY REVEALED

With the information gleaned from the examining physician's report, the authorities are inclined to place credence in the following theory:

That the young woman was murdered in Los Angeles, probably in an apartment-house or flat boarding, and her body dissected because of the necessity of removing it in a relatively small-sized container. They believe that the woman either was shot or died from some other injury to the body.

The murderer, it is estimated from the condition of the body, took place within forty-eight hours before the body was found at approximately 8 p.m. Thursday, the murderer probably burying the body in a shallow grave just west of Ninth Street bridge, Los Angeles, south to where the body was found. The flood that followed the rain Wednesday and Thursday is credited with dislodging the body, carrying it downstream.

The Ninth Street bridge was found as the point farthest north from which the body could have floated, as at that point several large storm drains flow into the river. It is believed that the murderer did not think that there was sufficient flow to carry the body.

The missing arms and legs, it is believed, might easily have been deposited in the same spot the body was disposed of, as they were the result of the hearing here and of the hearing held in Washington.

"Now then, I say that my confidence in the theory is great. It is reasonable to assume that degree that I feel that Judge Summers ought to be foreclosed against any opportunity to present his case before the committee. It is exceedingly unfortunate that he could not be here to defend his case before the committee.

There is a limited time in which this committee is authorized by the Congress to make a study, to make recommendations and to make a report to the Senate, and we want to make that report as quickly as we can, after giving every reasonable opportunity to Judge Summers, or to anyone else, to lay before this committee all the facts which the committee has learned before the committee as a result of the hearing here and of the hearing held in Washington.

CONFERENCE HELD

One of the first acts of the Sheriff's investigation yesterday was to hold a conference with Police Inspectors Joe Taylor and James Bean. The police officers promised every co-operation in helping to find the slayer.

The other members of the Senate judiciary committee have been inquiring of a knowledge of anatomy and the use of sharp instruments.

TITLES QUIETED

Senator Bratton of New Mexico brought out at the hearing that in 1931 Congress went into the principles at issue in this hearing, confirmed the land title now questioned by the homesteaders and quieted the title by a bill to quiet up for the homesteaders and that this committee can not now go back of that action of Congress. He brought out that vast sums have been expended in developing the properties concerned under the ownership protection offered by the homesteaders.

Then he said, "I think that action now could be begun, then it might hardly be ended before another might be begun and another and another to infinity."

Senator and by some action, the Senator said, this must be determined and this was done by Congress nearly eighty years ago.

He pointed out a multitude of decisions and actions by high Federal officials including United States Supreme Court which substantiated the action of that Congress.

He drew admiring applause from the men in a search of the river bottom above and below where the body was discovered, but found nothing. Many of the citizens, who found the body, were interviewed again but could add nothing to their original stories that they first saw the body floating in the river.

Several bridges cross the Los Angeles River bed above Lynwood, as well as across the Rio Hondo wash, which also empties into the river near Lynwood, and preparations were made last night to check on houses and cabins near the river bank.

GET OFF FREE ON PROBATION

The State, it is not expected a decision will be reached by the Appellate Court before midsummer.

Attorney Gleason stated yesterday if the Appellate Court rules to sustain the conviction of Keyes and Rosenberg, the appeal will be taken to the State Supreme Court.

Fete Today for Red Cross Body

Mrs. Robert Newton Heath and Mrs. John Howell Heath will entertain the American Red Cross Motor Corps of the Los Angeles chapter this afternoon at 626 North Los Palmas avenue. Mrs. Oliver G. Hersham and Mrs. Fremont A. Warren will pour, and will be assisted by Mrs. W. C. Yeatman, Mrs. Pauline, Mrs. M. M. Young, Mrs. O. J. Maguire, Miss Emily Booth, and Mrs. Charles Van Valkenburg.

TEXANS WILL GATHER

President Lyon S. Black has arranged a program for Friday evening which will meet at 1917 South Hope Street. Plans for the annual picnic and celebration of San Jacinto day will be announced.

Where Torso Was Found in Mystery Slaying

Tragedy Revealed by Flood in River Bed
Mr. and Mrs. C. E. Hibbs, back of whose home near Lynwood the body of a woman was discovered, show spot where gruesome find was made.

OFFER ON LAND CLAIMS RECITED

(Continued from First Page)

Judge Summers. That confidence, while not completely shaken, I must say, by the failure of the witness, as recited by Judge Summers, who would testify to this thing and who, when they have been called to the stand, would say nothing, she has substantiated nothing, she has hardly nothing that was charged before the committee there in Washington.

The murderer, it is estimated from the condition of the body, took place within forty-eight hours before the body was found at approximately 8 p.m. Thursday, the murderer probably burying the body in a shallow grave just west of Ninth Street bridge, Los Angeles, south to where the body was found.

The flood that followed the rain Wednesday and Thursday is credited with dislodging the body, carrying it downstream.

The Ninth Street bridge was found as the point farthest north from which the body could have floated, as at that point several large storm drains flow into the river. It is believed that the murderer did not think that there was sufficient flow to carry the body.

The missing arms and legs, it is believed, might easily have been deposited in the same spot the body was disposed of, as they were the result of the hearing here and of the hearing held in Washington.

"Now then, I say that my confidence in the theory is great. It is reasonable to assume that degree that I feel that Judge Summers ought to be foreclosed against any opportunity to present his case before the committee. It is exceedingly unfortunate that he could not be here to defend his case before the committee.

There is a limited time in which this committee is authorized by the Congress to make a study, to make recommendations and to make a report to the Senate, and we want to make that report as quickly as we can, after giving every reasonable opportunity to Judge Summers, or to anyone else, to lay before this committee all the facts which the committee has learned before the committee as a result of the hearing here and of the hearing held in Washington.

It was subsequent to that hearing that Councilman Foster introduced a resolution asking that the matter be submitted to the voters.

The committee advanced in the hearing conducted for T. R. and A. E. Mitchell of San Francisco, and same named in the complaints, and said to be prominently identified in the asserted promotion ring.

McLissa also questioned a number of witnesses who, it is expected, will appear in court at the preliminary hearing to tell how they were solicited to purchase dance tickets at various times under the asserted promotion ring. The proceeds were to be used for the benefit of civic charitable organizations.

Several thousand "sucker list" index cards seized by District Attorney's investigators were being scanned by McLissa in search of more evidence to bolster the State's case against the twenty now named in the complaints.

Names of the twenty men involved were published with the expectation that a number of them would surrender voluntarily, it was said. Attorneys for Harry Waller, one of the defendants, informed the press yesterday that he would not lay claim to the twenty now named in the complaints.

Bad laws, if they exist, should be repealed as soon as possible; still, while they continue in force, for the sake of example they should be religiously observed.

—Abraham Lincoln.

Today's Bible Text

And he made his grave with the wicked, and with the rich in his death; because he had done no violence, neither was any deadly sin in his mouth. Isa. iii:9.

THE SULPHUR MARKET

The Sulphur Industries are also declar-

ing an extra dividend. Thus indicating that there is no immediate prospect of Hades going out of business.

MAKING THE GAME

Looks as if Dempsey figured on connecting up with Humbert Fugay in the promotion of future sporting events.

Well, Tunney was hooked up with Musso- liani for a day and these international alliances are a part of world politics and big business.

AT THE SOUTH POLE

A Commander Byrd and his polar associates have been enjoying a spring temperature of 47 and 48 deg. below zero. With the zephyrus swooning by at the rate of eighty miles an hour the country may hardly be said to be ready to welcome the robins. Only one Byrd can stand it.

MEN OF RESOLUTION

Councilmen who are candidates for office may at least be recognized as men of resolution. Not a day goes by but that some of them rise from their seats and submit eloquent resolutions calculated to dispel all earthly troubles from overlapping assessments to the possible cigarette famine.

SLOWING UP

It is known that the Jones law has already put a lot of bootleggers out of commission. They have saved quite a bit of money and will be able to worry along on what they have. Why take a last chance on a five-year sentence? The price of the stuff has advanced enough to convince the average soul that his supplies are affected. What he gets is charged with hazards and the rate has been boosted until it makes definite drag upon his income. This would be a good time to quit.

AGE OF WONDERS

One of the wonders recently shown here at the gathering of electrical scientists was mentioned as an electric eye. Anyhow, it could count and record all persons passing its ken by the mere registration of their shadows. Marvels like this may be turned to practical uses which will be determined later. We should somehow be able to make a good detective or traffic cop of the electric eye. Give Mr. Televox an electric eye and a talkie outfit and we may soon be able to dispense with humans. Here would be a cast-iron guy who could play golf and bridge at the same time.

FEELS PUT OUT

Man, who was unable to eat his Christmas dinner in Los Angeles is suing the Fulling Company for \$100,000 as damages in negligence to get him here on time. He must have been expecting an exceptionally fancy spread. When an Imperial Valley turkey can make a guy's mouth water \$100,000 worth it must be some bird. The railroads say that there were so many folks trying to make the Santa Claus run to California at that time that they could not help it if one got sidetracked now and then. They admit that a Christmas spread in Southern California is greatly to be desired, but that it is worth \$100,000 they are not prepared to concede. None of the fancy hotels has yet had the courage to charge that figure.

LOOKING BACKWARD

New York is having a revival of "The Black Crook" which was the first production on the American stage to present the American girl in tights. This was sixty-two years ago and for a full generation this offering was mentioned only with shame by virtuous and well-ordered folk. For some uncertain reason the production was considered naughty and so for twenty years or more it played to the naughty crowd.

Yet measured up against the offerings of the last decade it is pale pink dishwater. Nobody could understand why "The Black Crook" was under suspicion, but there it was. Now people are visiting the revival to see what it was that gave grandmoa a thrill of horror when she saw the posters on the dead walls fifty years ago.

WHAT CHARITY HIDES

Action of Dist.-Atty. Pitts in directing a felony complaint against eighteen asserted promoters of "charity benefits" is designed to rid Los Angeles of a very great abuse. Whether or not these eighteen persons are guilty of conspiracy to commit petty theft, there is no doubt of the literal truth of the old saying that "Charity covers a multitude of sins." Most of the promoters of such affairs appear to believe also that charity begins at home!

The issuance of the complaint followed the arrest of one such promoter on another charge and the revelation that much less than 50 per cent of the funds collected by him and his agents ever reached the charity supposed to be benefited. According to the Community Welfare Federation, if this promoter's allowance to the charity even approaches 50 per cent, he was unusually moderate in his demands, since the usual share of charity in such affairs seldom exceeds 15 per cent!

The scheme, in general, is for a promoter or group of promoters to approach some charitable organization and offer to organize a benefit dance or entertainment, with the stipulation that it will cost the organization nothing. Tickets and program advertising are sold in the name of the organization, commissions of 60 to 75 per cent, and printing and other expenses amounting to an additional 10 per cent are deducted from the gross receipts, and the small remainder turned over to the sponsoring organization.

Dist.-Atty. Pitts estimates the takings of one group alone have been in the neighborhood of \$600,000 a year and declare there is a nation-wide syndicate which makes a business of such promotion.

The high ratio of expense in collection may be realized by comparison with the Community Chest, where campaign and administrative expenses combined seldom exceed 6 per cent of the gross collection, leaving approximately 54 per cent for the actual support of the various member institutions. The amount mentioned by Mr. Pitts is approximately one-fourth of the total Community Chest collections which support the great bulk of the city's charities.

This is not to say that all charities not connected with the Chest are unworthy or all Chest drives unnecessary. There are worthy charities outside the organization, and charities inside must make supplemental collections for building funds and the like, as the Chest money can be used only for maintenance and current expenses.

The Community Welfare Federation is in position to supply accurate and unprejudiced information about non-Chest charities. When anyone approached for a donation, asked to purchase tickets for a benefit, or solicited for program advertising for a charitable purpose, is in doubt about the matter, a telephone call to the Federation, Westmore 7351, will usually enable him to discover the merit of the appeal. No legitimate collector can object to such an investigation.

ENFRANCHISING CALIFORNIA

A State that in a normal election does not exercise more than 39 per cent of its registered voting power has voluntarily disenfranchised itself to that extent, that is to say it has permitted two-thirds of its political influence to remain in abeyance. The problem of better citizenship includes among other issues that of getting out the vote because it has been observed that lack of interest in administrative affairs, national or local, is a sign in general of an absence of public spirit and a dulled public spirit is poison to any community.

As one of our foremost agencies for promoting better citizenship the California Development Association has been working since 1924 to stimulate a genuine interest on the part of the State's citizens in the exercise of their franchise. The result of their efforts is gratifying not only to the association but to the people of California. The following figures speak for themselves.

California's national voting percentage for 1920-1924 was 65.7; for 1924 it was 70.7, while its voting rank among the States has risen from thirty-second place in 1920 to eleventh place at the last November election. This higher degree of citizenship in California was accomplished through tying in local communities, chambers of commerce, civic groups and women's organizations to a co-ordinated program. A remarkable instance of what such zeal may effect is seen in the result of the cup competition instituted between the communities of the State, in which contest Ramona established a national record in 1928 with a voting percentage of 98.6.

In addition to these "get-out-the-vote" campaigns the association's Better Citizenship Committee is undertaking a study of civic problems in their entire scope. This patriotic organization before it was an abolitionist before he was a prohibitionist. A Quaker with a lineage of pacifists back of him, he recruited a regiment and rose to be a general in the Civil War.

Dow's mother's name was Hattie Evil Hall. Possibly her name was expressive of both herself and her parents. While she bore it, they gave it. Neal Dow inherited the spirit of it. Characteristics sometimes leap over a generation.

A PROHIBITION ANNIVERSARY

The one hundred and twenty-fifth anniversary of the birth of Neal Dow, pioneer prohibitionist of America, was celebrated in Maine recently. A reformer by nature, he was an abolitionist before he was a prohibitionist. A Quaker with a lineage of pacifists back of him, he recruited a regiment and rose to be a general in the Civil War.

Dow's mother's name was Hattie Evil Hall. Possibly her name was expressive of both herself and her parents. While she bore it, they gave it. Neal Dow inherited the spirit of it. Characteristics sometimes leap over a generation.

The first thought of a dry law for his State came to Neal Dow in a grogshop. He had gone there to protest against the sale of liquor to an inebriate who did not support his family. The saloon-keeper retorted that he also had a family to support. Dow threatened to have the law changed that privileged a bar-keeper to enrich himself by impoverishing others.

He started in at Portland and it went dry. Local option was born. When a stranger lamented the "shameful waste" of emptying booze into the gutter, Dow responded that it was not as wasteful as being poured into a man

LEE SIDE O'LA

BY Lee Shippey

ONE naturally would assume that the chief of the Los Angeles Weather Bureau, who so rarely permits the temperature to pursue anything but a very even tenor, must be an exemplar of the tranquil life whose adventures all have been in the laboratory. But Col. H. B. Hersey, our weather man, well might qualify for president of the Adventurers Club. Not many years ago he was playing leading roles in daring dramas which aroused the admiration of the world!

The issuance of the complaint followed the arrest of one such promoter on another charge and the revelation that much less than 50 per cent of the funds collected by him and his agents ever reached the charity supposed to be benefited. According to the Community Welfare Federation, if this promoter's allowance to the charity even approaches 50 per cent, he was unusually moderate in his demands, since the usual share of charity in such affairs seldom exceeds 15 per cent!

The scheme, in general, is for a promoter or group of promoters to approach some charitable organization and offer to organize a benefit dance or entertainment, with the stipulation that it will cost the organization nothing.

Tickets and program advertising are sold in the name of the organization, commissions of 60 to 75 per cent, and printing and other expenses amounting to an additional 10 per cent are deducted from the gross receipts, and the small remainder turned over to the sponsoring organization.

The high ratio of expense in collection may be realized by comparison with the Community Chest, where campaign and administrative expenses combined seldom exceed 6 per cent of the gross collection, leaving approximately 54 per cent for the actual support of the various member institutions. The amount mentioned by Mr. Pitts is approximately one-fourth of the total Community Chest collections which support the great bulk of the city's charities.

No legitimate collector can object to such an investigation.

At the same time, an ex-Rough Rider named Hersey obtained leave of absence from the United States Meteorological Service, went to France to study aeronautics, qualified for a pilot's license and became a member of the Aero Club of France. He was to be Hersey's pilot.

Interested Amundsen

They found dirigible balloons still sadly imperfect. So they never reached the pole. They got to just about the place where Amundsen vanished from the knowledge of men.

In his heroic effort to rescue his former navigator, Nobile, Amundsen was greatly interested in Wellman's effort, which well may have been the inspiration of his balloon trip to the pole later. Hersey met Amundsen and they became friends.

First World Race

Airplanes hadn't been invented then, and all the world was excited about balloons. So James Gordon Bennett offered the Bennett cup for an annual international balloon race. France then led the world in aeronautics.

The first bill for prohibition in Maine was introduced into the Legislature by James Appleton. However, it was largely through the efforts of Neal Dow that a constitutional amendment was passed in that State. Maine and her laws at once became the model for other States.

Beginning the fight against the saloon in his twenties, this year may be regarded as the one hundredth anniversary of the prohibition movement in America.

If you try to seem what you aren't, it's because you are ashamed of what you are.

Unrest: The unhappy state of moderns who can't think of anything else to want.

There will be no business for a divorce lawyer if her wedding outfit includes six kitchen aprons.

Suggested song for that pen-flapper: "The Girl I Left Behind Me."

Successful man: A second-rater who got by because his competitors were third-raters.

A discreet man is one who says and thinks of all the exciting things he would have said to the traffic cop if he had thought of them at that time.

Let the retired great take it easy. Anybody able to sit is in the right position to depend on his pen.

Every community has at least one rich handicap who grows because people spend the money for automobiles and nonsense.

Americanism: Spend money for improvements, dodge the profits tax; value about the overhead when we are ask for increased pay.

City noises might be worse. Suppose the combination has the sound of a giggle.

The "city man" who some thinks most is one who misses the privilege of asking Central what time it is.

You can tell a pedestrian who has manhood enough to stand up for his rights. He limps.

David thought all men lie so the cigarette testimonial probably isn't the first of a kind.

Advice to a young man: If you propose to her, serve as her partner at bridge and trust her ace.

Plumbers who charge for the time spent in going back to tools are less reprehensible than jokers who take money for that old whose.

Prize means little. Men are on the men because she can no row when they steal her eggs.

Correct this sentence: "has a Federal job now" and "but he is humble and courteous in his dealings with the public."

The most unfortunate about common sense is that it is so unashamed.

The man who said time heals all wounds never got a deep cut in his vanity.

Numbers of people know how to speak in public, but few know just when to quit.

RIPPING RHYME Walt Mason

PERILS OF WEALTH

When you have saved a thousand, and men with warts and beards will come to jar you from your wad. There's not so good to see, the great ruble and the crown, the rump and bawbee. You only need iron will, a stern resolve, a hard, to save per week a dollar bill, or a cent you can afford. Then you may have friends, but soon you'll find it is a treat to watch your bundle grow. man whose talents are cheap, whose gifts are far from brave, may gain a place to save. But when the package has been won, the crucial test arrives, for fakers come upon you. Has he the wisdom now to tell the false tale from the true, and will he let his savings go? smoke goes up, and he now swallows and believes the yarn of every gent who tells him how he may achieve some forty-four per cent. Will he sludge in gaudy dreams of what he was made, forgetful of the wails and screams of those who were betrayed? Has he moral courage now to bid his fakers go, determined that he won't allow such marks to his dough? Oh, many have saved for years, and when they reached their goal cleaned up by the profiteers who grasp at every roll. You can protect the bundle when won.

SUSPECTS FACE MANY CHARGES

Witnesses Identify Seven as Bandit Gang

Presumptive Wife of Leader Arrested in Court

Hearing, Uncompleted, to be Resumed Monday

Jack De Witt, asserted bandit leader, and six men said by police to be members of his gang yesterday heard what was said in Municipal Judge McDill's court describe a series of hold-ups in which they declare the defendants participated.

The seven men are having their preliminary hearing on charges of grand theft, burglary, robbery and driving a automobile without the owner's consent. The other conspirators, covered and charged, according to Dep. Dist. Atty. Stahlman, will be heard as soon as the trial now in progress is finished. It will be resumed next Monday. Judge McDill ordered last night, when Stahlman was unable to finish his case.

WOMAN ARRESTED

Louise De Witt, arrested with De Witt in his apartment at 321 West Ninth street, where most of the arrested bandits were apprehended last night, was taken into custody when court adjourned yesterday. Police declared that she was arrested for adultery, asserting that a telegraphic warrant had been received for De Witt to appear with information that he left his legal wife.

Witnesses called by Stahlman yesterday included J. L. De Wolf, taxicab driver residing at 1004 West Seventh street. De Wolf declared that he took five of the men and Louise De Witt from the 10th and Figueroa streets on the night of March 23, last. Louise and De Witt got out there, he said, the other four men riding in the cab to Seventh street and Union avenue, where they held him up.

STOLEN CAR RIDDLED

A. P. Henderson, 110 North Fifth street, Montebello, declared that his automobile, stolen on the night of March 23, was recovered by police on March 11. The car had several bullet holes in it, he declared. Police officers said these were made in a running fight with Willis Orendorff and John Bandit, asserted members of the bandit gang, on the same night, when they were captured.

Louise De Witt, Jack De Witt, Marion Deyo, J. L. Clifton, Frank V. Burke and James O. Hamilton, according to Stahlman, were arrested by De Witt, a partner in the bandit gang, on the same night, when they were captured.

TRAIN HITS TRUCK AND KILLS ONE

Obstructed View Blamed for Death at Crossing in North Hollywood

With his view obscured, police believe, because of the side-curtains on his vehicle, Earl Allen, a truck driver was killed instantly yesterday morning when he drove his six-wheeled motor truck from a speedway on the Southern Freeway at the Glendale-eleventh avenue crossing, North Hollywood. The truck was dragged in a twisted mass a long distance before the train could be stopped.

Witnesses told Patrolman H. C. Clark that Allen had made a desperate effort to leap from the truck as he realized his danger, but that he had become caught in the side curtains.

The train was in charge of Engineer Joe Davis and Conductor H. R. Price.

Allen, who was 37 years of age, was employed by the Consolidated Rock Products Company and lived at 11761 Hamlin street, North Hollywood. The body was removed to the Keith Undertaking Parlor, North Hollywood, where a Coroner's jury will conduct an inquest at 8 a.m. today.

His truck demolished when it was hurled from Truck Boulevard by a Pacific Electric mail train in Long Beach last yesterday. Frank McCallum, 36, of 208 Mulberry street, Long Beach, a mail carrier, which result in his death.

McCallum was taken to the Seaside Hospital in Long Beach, where physicians said he had little chance to recover. He received a possible skull fracture, compound fracture of the hip and several broken ribs.

Graveyard Looks Like Village

The natives of Alaska are much given to superstitious beliefs, alights and ghosts and as a rule they are dreadfully afraid of the dark of the night, so that the section of land given over to the disposition of the dead is held in great reverence. The dead one with all his personal effects, such as skins, blankets and clothing, is generally laid away and is generally safe from molestation, although occasionally some member of the tribe may become so depraved as to remove some of the goods if he can do without desecration. Frequently a small house is erected over this accumulation so that in the course of time the burial ground comes to take on the appearance of a miniature village.

In some parts this is taken to the extent of an annual ceremony and on a certain day of the autumn many persons may be seen erecting these houses over the resting place of their departed relatives.

Toke Japan, plans to spend nearly \$10,000,000 in improving his streets.

DRIVE STARTED ON BILLBOARDS

Other Unsightly Structures on Roads Also Eyed

State Development Group in Session at Alexandria

Steps Taken for Cleaning Up California Highways

Unsightly billboards, soft-drink stands, auto camps and vending stands along California highways were frowned upon in an uncertain manner yesterday by the Southern California Regional Advisory Council of the California Development Association, session at the Alexandria Inn. Adopting a resolution submitted by the highway committee of the council, the body decided that a plan for abolishment of these unsightly objects be carried out. The plan includes appointment by chambers of commerce throughout the State of committees to inspect their respective fields, report conditions to the highway committee and for the council's committee, in turn, to issue detailed instructions to the chamber committees as to how to proceed to eliminate the objectionable highway features. The plan should be carried out as soon as possible by the property owners where unsightly conditions prevail, promising to improve conditions.

RESOLUTION OF APPRECIATION

A resolution of appreciation for the stand taken by Gov. Young on the question of the four-to-one secondary highway ratio for Southern California and prom's of support for that policy was adopted by the committee on recommendation of the highway committee.

The council voted to laud a campaign at once against so-called fly-by-night aviation schools and against airplane manufacturers who raise funds in communities and build one or two planes and then get out of business. A campaign encouraging the standard marking of airports in line with recommendations of the United States Department of Commerce was also authorized by the council.
